

**BOOMER
BEAST**

BOOMER BEAST

The Boomer Beast is Daymak's latest installment of the Beast line. This three wheeled mobility scooter is perfect for those who want the added stability while benefiting from the features that makes the Beast one of the most popular scooters to date. The Boomerbeast comes with a full sized king seat with armrests that can be moved and adjusted to fit your needs. The Boomerbeast still comes with the on and off road capability allowing riders to take it through rough terrain or on the streets.

TAKE BACK YOUR FREEDOM

It was our goal to give the accessibility and the mobility that is too often taken from us due to unforeseen circumstances. We've heard too many stories of people who have had health issues and now are confined to their homes with nothing but public transit or depending on others help. The Boomerbeast restores that freedom without the stigmas that normally come with mobility scooters. Travel up to 90 km on a single charge and get to where you need to go!

STREET LEGAL

The Boomerbeast is road legal allowing it to be rode along the side of the road without a license or insurance.

BOOMERBEAST

CUSTOM TO YOU

The Boomerbeast comes in with multiple options that you can pick and choose from. Pick between rear wheel drive or all-wheel drive for additional power. Choose between wheel sizes of 19" or 22" rear wheel tires or add an additional rear ATV mounting rack. Add a solar powered battery pack to trickle charge your scooter. Or Upgrade to 43AH lithium ion battery for maximum range.

A person wearing a white cap and a blue hoodie is riding a black electric mobility scooter on a dirt path. The scooter has a large, knobby tire in the foreground. In the background, another person is riding a similar scooter. The scene is set in a wooded area with bare trees and fallen leaves on the ground.

The Fastest Electric Mobility Scooter

The Boomerbeast Mobility scooter can reach speeds of over 40 km/h (25 mph) making it the fastest mobility scooter in North America. 7 mph faster than the EW-36 GT3 or the Rickshaw King!
